Rancho Cordova, CA 95670

Dear Deborah,

At Volunteers of America, we believe there is something greater than ourselves, that there is power in the human spirit and that there is dignity and worth in all people. Thank you for supporting this view by participating in our recent Adopt-A-Family project.

Because of the generosity of our community, 98 families and more than 600 individuals had gifts and a traditional holiday dinner this Christmas. Each holiday season, we are overwhelmed with numerous phone calls from individuals offering to volunteer their time, adopt a family or donate items that will help keep homeless men or women and children warm during the winter months. We are blessed to be part of a community that cares so much about those less fortunate.

Each month, we provide you an opportunity to see first-hand how your support helps those-in-need at one of the 42 Volunteers of America's programs. During our one-hour tours, you will view the facility and hear stories of individuals who have found renewed hope through our programs. Please contact us if you are interested in joining us for this special opportunity.

Enclosed you may find a thank-you letter from the family/individual(s) you adopted. If the family/individual(s) was willing to share photos, those are also enclosed. Please know that often times the recipients of such wonderful gifts are so overjoyed that all they can say is "thank you." Sometimes, that says it all.

Warmly,

Kim Castaneda  
Community Relations Manager
